

To whom it may concern –

I had the pleasure of working with Jaya for almost two years on a Water Theme Park for Resorts World Sentosa in Singapore. Jaya was the Senior Construction Superintendant responsible for supervising and building the Thematic Elements and Rockwork for the Water Theme Park.

Jaya played a vital role in the construction of the Project and was an indispensable member of the Team. He consistently delivered a high quality product and kept the Project on schedule. Jaya took a proactive and positive approach to his tasks and could always be counted on to deliver.

Jaya is a passionate, motivated, dedicated and diligent Leader. I was always impressed with his resourcefulness on-site and how efficiently he managed his Teams.

Jaya is a Team Player and works well with everybody. He is responsive to constructive critique and contributes ideas and options until a challenge is solved. Jaya is a very honest, punctual, and trust-worthy person.

I give Jaya the highest recommendation and look forward to working with him on future Projects. Thank you.
